## Syphilis Victims in U.S. Study Went Untreated for 40 Years

By JEAN HELLER  
The Associated Press

WASHINGTON, July 25—For 40 years the United States Public Health Service has conducted a study in which human beings with syphilis, who were induced to serve as guinea pigs, have gone without medical treatment for the disease and a few have died of its late effects, even though an effective therapy was eventually discovered.

The study was conducted to determine from autopsies what the disease does to the human body.

Officials of the health service who initiated the experiment have long since retired. Current officials, who say they

have serious doubts about the morality of the study, also say that it is too late to treat the syphilis in any surviving participants.

Doctors in the service say they are now rendering whatever other medical services they can give to the survivors while the study of the disease's effects continues.

Dr. Merlin K. DuVal, Assistant Secretary of Health, Education and Welfare for Health and Scientific Affairs, expressed shock on learning of the study. He said that he was making an immediate investigation.

The experiment, called the Tuskegee Study, began in 1932 with about 600 black men,

## The AIDS Conspiracy Handbook

Jeremiah Wright's paranoia, in context.

By Juliet Lapidus

Posted Wednesday, March 19, 2008, at 5:51 PM ET

Barack Obama rebuked his former pastor the Rev. Jeremiah Wright on Tuesday for giving sermons in which he blamed the government for creating a racist state and "inventing the HIV virus as a means of genocide against people of color." Wright isn't the first to say that AIDS originated in the White House. Others have attributed the epidemic to a laboratory accident, malnutrition, or even God's divine will. Here's a field guide to the most prevalent conspiracy theories:

### Government Involvement

The belief cited by Wright—that the government invented HIV—seems to have originated during the early years of the epidemic. In 1986, crackpot East German biologist Jakob Segal published "AIDS: USA Home-Made Evil." According to the pamphlet, scientists at a Fort Detrick, Md., military lab manufactured the disease by synthesizing HTLV-1 (a retrovirus that causes T-cell leukemia) with Visna (a sheep virus). The scientists administered their lethal concoction to prison inmates, who then introduced the disease into the general population. In case you're wondering, Segal has since been accused of being a Soviet

### disinformation agent.

Similarly, the aptly named Boyd E. Graves (who calls himself a doctor although he has only a law degree) has postulated that scientists in the employ of the U.S. Special Virus Program modified Visna to create HIV during the 1970s. The government, with help from pharmaceutical company Merck, added the virus to an experimental hepatitis B vaccine, which was given to gay men and blacks in New York and San Francisco.

And then there's Gary Gium, author of *Full Disclosure*, who fronts the theory that scientists at the Cold Spring Harbor lab in New York engineered HIV, and that the World Health Organization spread the virus under cover of the smallpox eradication program. Gium believes the virus was created to wipe out, or at least

## U.S.: 1940s STD Experiments "Clearly Unethical"

Posted by David S Morgan

(Credit: CBS/AP)

The U.S. government has formally apologized for a secret study conducted in the 1940s in which Guatemalan prisoners, service members and mental hospital patients were secretly infected with gonorrhea and syphilis without their knowledge or consent, calling the program "clearly unethical."

The United States in EFFORTS to COVER-UP their LIES ALWAYS try to make the person (i.e. like Jeremiah Wright) seem like a lunatic or crazy. **NOW who was TELLING the TRUTH? Is it YOU?**
